

BAKKIYALAKSHMI E

Email:bakkiyalshmiethiraj1101@gmail.com

Phone:+91 6374527209

Location: Chennai, India

OBJECTIVE

To secure an entry-level position in the field of Information Technology where I can leverage my knowledge of software engineering, database management, cloud computing, and network administration to contribute to innovative solutions while advancing my technical expertise.

EDUCATION

- College: Saveetha Engineering College, Chennai
- Course: Bachelor of Technology in Information Technology (2023 – 2027)
- CGPA: 8.5
- Programming Languages: C, Python,HTML,JAVA.Data Structures
- Domains: DevOps & Automation,Web Development

PROJECTS

Title: Automated Food Quality Analysis Using Image Processing and Machine Learning

This project develops an automated system for fruit and vegetable quality assessment using computer vision and ML. A YOLOv8 model detects and localizes items, followed by feature extraction (color, texture, appearance). A trained classifier (e.g., Random Forest) categorizes items as fresh or spoiled. The pipeline is integrated with a Tkinter GUI for image upload and real-time webcam analysis. The system ensures scalable, consistent, and efficient quality control, reducing food waste and enhancing safety.

IMPLANT

Implant Training in Artificial Intelligence – Trios Technology

Completed implant training in Artificial Intelligence with hands-on experience in ML models and real-world applications. Enhanced problem-solving and analytical skills through practical sessions and project-based learning.

HARD SKILLS

- **Tools:** GitHub, Visual Studio Code, Jupyter Notebook,Leet code,Linux
- **Certificates**
- Internet of Things (IoT) – NPTEL(Dhanalakshmi College of Engineering -Manimangalam)
- Introduction to Cryptography
- Cybersecurity Analyst Job Simulation
- UX Design for Web Developers

SOFT SKILLS

- Creative Skills
- Problem Solving
- Leadership
- Time Management

DECLARATION

I hereby declare that the above information is true and correct to the best of my knowledge and belief.
